Biography

Sallana Brown is an educator, entrepreneur, and award-winning author of inspiring books that teach empathy, resilience, grit, collaboration, creative thinking, and resourcefulness. Her stories ignite a spark in kids, not just for academic success, but for personal growth and lifelong learning, giving them the tools to build a happy future.

As the creator of the STEAM School Squad series, Sallana weaves science, technology, engineering, art, math, entrepreneurship, mindset, and even genealogy into her books. She believes these skills are important and she's passionate about igniting a love for them in young readers.

She is excited to continue writing books that help people learn and grow. Every person has the potential to succeed, and she wants to give them the tools they need to reach their full potential.

She lives in Metro Atlanta with her family, including her three spirited children who often inspire her writing. She is working on exciting new projects. Stay tuned to see what she creates next.

Book Reviews

"...Sallana Brown's book is a valuable addition to children's literature, offering both entertainment and valuable lessons about the world around us. It encourages curiosity, empathy, and a sense of responsibility for the environment, making it an excellent choice for children." ~ The Book Commentary

"A fun fantasy tale that offers informative entomological facts." ~ Kirkus Reviews

"For budding young scientists, it offers an intriguing look into zoology and, more specifically, entomology. This is a wonderful story for young readers that should spark interest in science, teamwork, and leadership." ~ Readers' Favorite

Book Summary

Jeremy explores a nearby forest to observe insects in their natural habitat. But why does the ash forest look so different than before? Jeremy and his friends will have to ask a lot of questions, consult their knowledge of entomology and research invasive species to find out.

The new STEM-themed book by Sallana Brown explores the world of science in an engaging way, perfect for young minds.

Book Description

Jeremy and his friends are on a mission - to save the ash trees of a nearby forest from the invasive Emerald Ash Borer Beetles!

Young readers discover different kinds of bugs in this fiction picture book. With bright and colorful illustrations, children are introduced to the world of Entomology! This exciting branch of zoology focuses entirely on bugs and insects. While this book is great for any classroom, kids are encouraged to explore their interest in these small creatures. The book features simple vocabulary, easy science experiments, and a glossary that supports young readers aged 6-10.

This book is perfect for curious children who love to ask, "Why?" or "What?" about the world around them. This engaging story satisfies curiosity while encouraging continual student-led learning.

This book explores introductory concepts perfect for children in the primary grades.

Visually stimulating & educational

Acclaimed, trusted, & informative

Great for classrooms & summer camps

Perfect for kids interested in bugs and insects

WHY PURCHASE THIS BOOK?
